The Flowers Of Cloudcroft

Eighty-seven Varieties Make Beautiful the Whole Mountain Side.

BY MRS. W. S. TILTON.

Cloudcroft, N. M., Sept. 26.—Not the least among the attractions of Cloudcroft are its great variety of beautiful wild flowers. From the time the first rains come until the frost in the late fall, the whole mountainside is ablaze, the fields are as of gold, with yellow daisies, sunflowers and golden rod, the open meadows are white with wild daisies, wild orange blossoms, wild mignonette and candy tuft, while a riot of bloom and blossoms is to be seen as far as the eye can reach.

So much has been said about the flowers and so many inquiries made that a list as far as it has been possible to get the names of the flowers will be of interest. It has just been learned that three new, unknown varieties of flowers have sprung up this summer over in James canyon. It is supposed the pollen has been carried by the wind, perhaps from the cultivated flower gardens at Mountain Park.

The following are 87 varieties of the flowers that flourish the hills and valleys of this section:

Wild geranium, mock bishop weed, yellow, wild carrot, hair bells, wild cypress, painted cup, wild lily of the valley, iris columbine, white, golden, purple and pink aster, sunflower, primrose, sun droop, blue, purple and white vetch, night shade, day lily, blue and purple, queen's lace (bird's nest), white violet, wild rose, wild onion, forget-me-not, rough cinquefoil, wood sorrel, blue verain, cornus, pink and white, golden rod, silver rod, pink clover, white clover, spreading dog bane, false Solomon's seal, clematis (traveler's joy);

yellow agrimony, cone flower, self heal (brunella); yellow thistle; purple thistle; cardinal flower; pink knotweed; fall dandelion; morning glory; larkspur; Jacob's ladder; spirea; yellow eyed grass; wall flower; wild strawberry; orchids, red, brown and green; flax; pink fireweed; wild yarrow; milk weed; two varieties; chickweed; catchfly; gentian; buck soap, two varieties; four o'clock; white snake root; wild pea; bouncing bet, pale corydalis, white health aster; wild veronica; wild pink aster; New Jersey tea; bitter fly wood; moth mullein; indian paintbrush; indian arrowhead; wild mignonette; wild orange blossoms; white daisies; yellow daisies; wild candy tuft; goat's beard; wild raspberry.

waterworks are to be extended to the Cia. Mexicana Abastecedora de Aguas y Saneamiento de Torreon, the city water company having recently entered into a contract with the factories, business houses and private citizens across the railroad tracks to give them water and sewerage service. BISBEE SEEKING A MILITARY POST

Enters Field with Other Arizona Cities; Clubs Closely Affiliated.

Bisbee, Arizona, September 26.—A movement has been started by which Bisbee will enter the list of towns claiming the military post to be established in southern Arizona. It is pointed out that this city offers great advantages for a garrison, superior to a certain extent, to those of the other cities in the contest. The plain below the Warren District Country club would furnish an ideal field for cavalry maneuvers.

The plan suggested by Walter Douglas for a more close union of the El Paso, Douglas and Warren District clubs will shortly be put into practice. Arrangements are being completed by which a future special privileges will be extended to visiting members of all three clubs.

A girls' club, already 22 members strong, has been organized by professor Krimbill under the name of the Cecilia Club. These members are all high school girls and will give musicals during the winter.

It has been announced that the Warren-Bisbee street railway company will start work in the near future to extend its line to Douglas canyon.

The offices of the marshal and the clerk of the city of Bisbee will be refurnished and renovated. This was decided at a meeting of the board of aldermen.

Two residences being built in Warren for Chapman and Fletcher have almost been completed. Work will be started next week by E. B. Matthews for the erection of a five room cottage. The residence was purchased by George Carlyle.

An ornamental fence of heavy chains and iron posts will shortly enclose the school grounds at Warren. Flowers and trees will be planted to further beautify the place.

Mrs. F. M. Peterson came to Bisbee from Anaconda, Mo., to inquire about her brother, Harry Wagner, formerly a miner with the Copper Queen, from whom she has not heard since the flood swept Bisbee. Mrs. Peterson, who was accompanied by her husband, firmly believes that her brother was drowned in the flood, all proofs to the contrary furnished by the police failing to convince her. She left after an unsuccessful effort to ascertain her brother's fate.

APPLES AT ROSWELL BRING BIG PRICES

Smudging in the Orchards Proves Very Beneficial For Winter Crop.

Roswell, N. M., Sept. 26.—P. D. Southworth is shipping apples—Stark's Delicious; Gano, Champion and Commerce varieties—and getting \$3.50 to \$4.00 a box for them, thus netting him \$2 a box above all expenses, at his orchard at Picacho, Lincoln county, west of Roswell, on the Hondo river. Spraying three times a year for codling moth, and effective smudging, together with good cultivation, are what have produced such results.

The smudging was done at a cost of \$10 per acre, with waste hay mixed with stable refuse, tightly baled and left out in the weather during the winter to rot. When the thermometer fell to the danger point the bales were splashed with kerosene and lighted at 10 o'clock at night. They were still burning at noon the next day. Mr. Southworth sorts and packs his apples with great care, using the three and a half, four and four and a half sizes, which makes the apples bring from 50 cents to \$1.00 more at a cost of only about five cents a box. Every box is sold on a guarantee that the apples are free from worms and damage.

One True Medicinal Whiskey

Beware of So-called Ones—Imitations

Unscrupulous dealers, mindful only of their profit and caring nothing for the health of their patrons, are offering for sale low grade mixtures, which they tell you are "as good as" Duffy's Pure Malt Whiskey.

Some go so far as to try to make you believe it is Duffy's Pure Malt Whiskey. These cheap concoctions are foisted on the people with the intent to deceive.

When a remedy has been before the public for more than half a century, has been prescribed and used by the best doctors and in prominent hospitals, and has carried the blessing of health into so many thousands of homes as Duffy's Pure Malt Whiskey has, imitations are bound to arise. They may imitate the bottle and label only—no one can imitate the contents.

Duffy's Pure Malt Whiskey Is Beneficial

It is an absolutely pure distillation of malted grain. Its palatability and its freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It has been used with remarkable results in the treatment of consumption, pneumonia, grip, coughs, colds, malaria, fevers, stomach troubles and all wasting and diseased conditions.

It is sold in sealed bottles only. The Old Chemist's Head is on the label, and over the cork is an engraved seal. Be certain the seal is unbroken. Sold by druggists, grocers, dealers, or direct, \$1.00 a large bottle.

Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctors' advice and valuable medical booklet.
